NUTRITION

IT'S ALL ABOUT THE INTAKE!

COW COUNTRY PRO 14 TUB

Low moisture, cooked tubs for optimal animal nutrition. Consistent Nutrient Delivery
Made in the USA

ABOUT THIS PRODUCT

All natural protein sources and complete mineral and vitamin package for cattle, bison and goats. Intake of Cow Country Pro 14 tub is naturally limited due to the hard consistency of the low moisture tub. The added mineral and vitamins are included to cover for deficiencies in the forages and diet of the cattle.

Cow Country Pro 14 is designed to be fed with moderate quality pasture or hay. The concentrated daily delivery of protein and carbohydrate improves rumen fiber digestion and promotes forage intake.

FEEDING DIRECTIONS

Feed one (1) tub per every 25 to 35 head of cattle. Place tubs in a dry area near loafing area, salt and water. Feed at the rate of 0.2 to 0.50 lb. per head daily. Provide free choice salt and access to fresh clean water at all times.

WARNING

This product contains copper. **DO NOT FEED TO SHEEP.**
