# COW COUNTRY MINERAL TUB

**Low moisture, cooked tubs for optimal animal nutrition. Consistent Nutrient Delivery**  
**Made in the USA**

## ABOUT THIS PRODUCT

Balanced and complete mineral supplement for beef cattle on pasture, dry lot and legume forages. Cow Country Mineral Tub is consumed by the cattle's licking action and naturally self-limiting due to the consistent nutrient density and hardness.

Cow Country Mineral Tub is naturally weather resistant and reduces the risk of losing valuable mineral to wind and rain. Daily intake of Cow Country Mineral Tub can be more consistent than conventional loose free choice mineral and can aid in modifying cattle grazing patterns by strategic placement of the tubs.

## FEEDING DIRECTIONS

Feed at the rate of one (1) tub for every 25 to 35 head. Place tubs in dry locations near loafing areas, salt, and water supply. Mineral Tub should be fed at the rate of 0.18 to 0.38 lb. per head daily. Free-choice salt should be offered to animals.

Intakes are approximate only and may vary with feeding conditions.

Provide fresh clean water at all times.

## WARNING

This product contains copper. **DO NOT FEED TO SHEEP.**

## NUTRIENT ANALYSIS

Calcium, min-max	7.0 – 8.0%
Phosphorus, min	4.0%
Magnesium, min	2.50%
Iodine, min	60 ppm
Copper, min	690 ppm
Selenium, min	9.0 ppm
Vitamin A	125,000 IU/lb.
Vitamin E	300 IU/lb.

*see product label for nutrient analysis*

**Available in 250 lb., 200 lb., 125 lb. plastic tubs | 225 lb. Biodegradable tubs 250 lb.**
