COW COUNTRY PRO 30-15 TUB

Low moisture, cooked tubs for optimal animal nutrition. Consistent Nutrient Delivery
Made in the USA

ABOUT THIS PRODUCT

Cow Country Pro 30-15 tub is a 30% protein supplement for beef cattle on low quality mature pasture, hay or grazing crop residue such as corn stalks or wheat stubble. Formulated for not more than 15% equivalent protein from non-protein nitrogen.

The Cow Country Pro 30-15 includes rumen available and bypass protein sources as well as non-protein nitrogen to stimulate rumen fiber digestion and support optimum rumen microbial activity. This is a high energy, mineral and vitamin dense formulation to support cattle performance. Cattle supplemented with additional crude protein and rumen friendly carbohydrates will extract more energy from the forage and more easily maintain body condition and reproductive performance.

FEEDING DIRECTIONS

Feed one (1) tub per every 15 to 25 head of cattle. Place tubs in a dry area near loafing area, salt, and water. Feed at the rate of 0.5 to 1.0 lb. per head daily. Provide free choice salt and access to fresh clean water at all times.

WARNING

This product contains copper. **DO NOT FEED TO SHEEP.**

NUTRIENT ANALYSIS

Crude Protein, min	30.0%
Crude Fat, min	6.4%
Calcium, min-max	1.4 - 1.8%
Phosphorus, min	1.0%
Copper, min	300 ppm
Selenium, min	6.6 ppm
